Authorization for this examiner's amendment was given in a telephone interview with Mr. John A. Merecki on March 27, 2007.

The application has been amended as follows:

- **line 32**, delete "it is possible to compose"
- **line 33**, after "monitored", insert ---is composed---;

**In claim 5**, line 3, change "there is a target" to ---the target is---;

**In claim 10**, line 4, delete "with";

- line 4, change "a" to ---the---.

2. The following is an examiner's statement of reasons for allowance: The prior art fails to show a device for determining the position of the metallic target wherein a damping curve of the detection device has partial areas with high positional resolution wherein the detection devices are so positioned that from the partial areas of high positional resolution of the individual detection devices a detection curve for the entire path to be monitored is composed. As to claim 16, the prior art fails to show a method for determining the position of a metallic target wherein the detection device with the second highest damping is used for evaluating the damping signal.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
